

Trustee's Sale

Whereas, William Young and Mary B. Young, his wife, by their certain deed of trust dated May 21, 1907, of record in book 30 page 548 of the records in the Recorder's office of Chariton County, Missouri, conveyed to J. M. Jayne, as trustee, the following described real-estate situated lying and being in the County of Chariton, Missouri, to-wit: Northeast Quarter (NE 1-4) and Southwest Quarter (SW 1-4) of the Northwest Quarter (NW 1-4) of Section Twenty-seven (27) and East Half (E 1-2) of the Southeast Quarter (SE 1-4) of the Southwest Quarter (SW 1-4) of the Southeast Quarter (SE 1-4) of Section Twenty-eight (28) and North Half (N 1-2) of the Northeast Quarter (NE 1-4) of Section Thirty-three (33) and the Southwest Quarter (SW 1-4) of the Northwest Quarter (NW 1-4) of Section Thirty-four (34) all in Township Fifty-five (55) Range Seventeen (17); which said conveyance was made in trust to secure the payment of a certain promissory note in said deed described, and which said note is now due and unpaid. And whereas, the said J. M. Jayne, trustee, refuses to act and the deed of trust providing that in case of refusal, death or inability of said trustee to act, that the legal holder of the note may appoint a trustee, and the undersigned is appointed to act in his stead and may proceed to sell the property therein described.

Now, therefore, by virtue of authority by said deed of trust vested in me, and at the request of the legal holder of said note, I will on Saturday, June the twenty-seven, 1914, between the hours of 10 o'clock a. m. and 5 o'clock p. m. of that day at the east front door of the Court House in Keytesville, Missouri, proceed to sell the above described real estate at public auction to the highest and best bidder for cash to satisfy said note and pay the cost of executing this trust.

Colorado Suffragists.

Western Congressmen are set to guessing, as to what their fate will be as a result of the women voters in the states which have granted them the very questionable right threatening to smash all politically who refused to vote to make it a National right. The President, Congress and leading Democrats and Progressives were opposed to the proposition of women politicians presented to the Judiciary Committee of the House and there was nothing doing except vociferous declarations that many would have the very great pleasure of staying at home after the next election, that is, many Congressmen, not any of the women who were present. It remains to be seen whether the women elected on the democratic ticket in the west will remain staunch or bolt because their sisters who have not been favored with office are disgruntled. Congress has practically decided that the women who are so anxious to mix in public affairs and become all tangled up with each other as well as every one else, can make their fight in the various states. It is a certainty that in some of the states where they have been granted the right of limited suffrage and so signally failed in producing results promised, they will have harder fight to retain their right to vote than they had to secure it. As a matter of fact, except for some discredited men politicians who yet expect to have the chance to get into public office thru the votes of women, there are few who see any benefit either to the government or the women from their entry into the political arena, and it appears that a majority of the women in such states are beginning to question it and lose interest.

"Its coming" is on the lips of many who mistake a little dust whirlwind in the public road for a cyclone, and this prediction applies as well to prohibition.

It is a certainty that women ascendancy in politics and prohibition are not synonymous tho each are impossibilities.

Crisman-Knight

Wednesday evening June 3 at eight o'clock, J. M. Crisman and Miss Beulah Knight were joined in the holy bonds of wedlock. The wedding took place at the home of the bride's parents, north of Brunswick, the ceremony being performed by Rev. Enyart. Only a few friends and relatives were present.

The groom is the son of Mr. and Mrs. J. I. Crisman of the Brunswick neighborhood, and is a young man of sterling worth and one whose character is above reproach. The bride is one of Chariton county's most estimable and popular school teachers and is a prize worth winning.

We extend our heartiest congratulations and best wishes for a long and joyous wedded life, strewn with roses but void of thorns.

Work For Harvesters

The commissioner of the bureau of labor says that Missouri will need about 30,000 men to harvest the wheat crop of 35 or 40 million bushels in this state. He says that the fly and bug have shortened the crop not more than a million bushels in the state and that only in spots in half a dozen central counties.

On Rooster day a Mendon buyer offered 10 cents a pound for roosters in case the seller sold all of them to him or agree to pen the others from the hens. The move for better eggs is growing rapidly. Keep the roosters from the hens—excepting during hatching season and the result will be better eggs, eggs more desirable for table use eggs that will keep much longer and will bring a better price.

KEEP THE KIDNEYS WELL

Health Is Worth Saving, and Some Keytesville People Know How to Save It.

Many Keytesville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers.

The following statement leaves no ground for doubt.

Mrs. Z. Conrad, Glasgow, Mo., says: "Last summer my kidneys were giving me a great deal of trouble. I had severe backaches and sharp pains across my loins. I had headache and spells of dizziness, too. I couldn't stoop or get up from a chair without having sharp, shooting pains in my back. I had used Doan's Kidney Pills some years before for kidney trouble and had been benefited. I again took them a few months ago, and they brought me prompt relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Conrad had. Foster-Milburn Co., Props., Buffalo, N. Y.

Postoffice Open Sundays.

The following letter will explain that there is prospect for us to get mail on Sunday at any time in the day.

Hon. R. W. Rucker heard so much desire for conditions to be changed in the particular of Sunday service at the postoffice, that he wrote to the Inspector in regard to the matter, after interviewing the owner of the building and fixtures, and the following is the answer.

St. Louis, Mo., June 1, 1914
Hon. Roy W. Rucker,
Attorney at Law,
Keytesville, Mo.

Sir:—
In reply to your letter of recent date, in which you suggested that arrangement be made to leave the doors of the post office at Keytesville, Mo., unlocked from 7 o'clock Sunday morning to 5 o'clock in the afternoon, and that the owner of the building and fixtures will prepare screens for the fixtures, have to advise that this matter will be investigated by a post office inspector with a view to having the patrons of the office accommodated as stated in your letter.

Very respectfully,
WM. L. REID,
Inspector in Charge

Wasted Sympathy

A fellow feels that some editors must have a powerful lot of sympathy. The supply seems to be inexhaustible as these are extended every person who dies, their families, their relatives otherwise and every other person who can by any hook or crook mourn the deceased. They also are extended in the same manner in each and every case. All of them are of the sincerest and profoundest varieties. If these editors would expend less energy in handing out their vital sympathies and would spend more of it in getting more for their paper, their job work and making fellows who owed them pay up, they would get more kale even if they did not waste so much useless sympathy.

At the first of the week the report was for a rainless week in this country.

Sunday Losing Out.

The newspapers and magazines all over the country are devoting considerable space to publication of the adverse views being launched by ministers and others against the methods and grafting of the notorious Billy Sunday, alleged evangelist.

While Billy asks no stated sum for himself, he gets thousands of dollars each week as "free will offerings" from his deluded victims, and makes conditions inimical to any sort of independence of the ministry in the neighborhood he infests, and the result is a general resentment against the slang slinger.

Rev. Dr. John W. Day says: "Billy Sunday and his followers are the army worms in the Church of Christ. Wherever they go, the true harvest of religion is destroyed." Practically all the ministers in St. Louis are opposed to the ex-baseball player coming to that city.

His choir leader, Homer Rhodheaver was sued by a Miss Jay for breach of promise and a judgment for \$20,000 damages was awarded her in Chicago last week. The evangelical chorister admitted to seances with the young woman which would inspire a billy goat to sing the doxology becomingly, but it is not on account of the mashing proclivities of the main hummer that the St. Louis ministers object to the presence of Billy and his retinue. Billy himself does not look good to them and they wish no excitement to settle when he has made off with the cash.

Save Eggs During Hot Weather

Statistics show that during the summer months from one-fourth to over one-half the eggs produced in Missouri are a total or partial loss.

Heat is directly or indirectly responsible for a loss to Missouri farmers of two and one-half million dollars worth of eggs annually. Heat cause germ growth, embryo and mould development, increases evaporation and causes eggs to become bad in a very short time. April eggs are high in quality because of the lower temperature which prevails at that time.

Nearly all of the loss in eggs due to heat can be voided by the ordinary convenience that the average farm provides. If farmers would take the same care of eggs that they do of butter before and during the time it is taken to market, there would be practically no loss from heat. Any temperature above 70 degrees is too warm. Even under the best of conditions eggs should be taken to market at least once each week.

Eggs should be collected daily and should be cooled as quickly as possible. A sweet, fresh basement which is cool or a cyclone cellar makes a satisfactory place to store eggs. They may also be kept cool by placing them in a bucket lowered into a well. Avoid storing them in a musty basement and keep them away from flies.

If these directions are followed and eggs are carefully protected from heat while being taken to market, the value of Missouri's egg crop may be increased two and one-half million dollars during the next four months.
